

## Priority timetable to support students with SEND

Dear parents/carers,

Thank you for your ongoing support in these unprecedented circumstances. We have taken on board feedback from students and parents regarding work set. A communication will have gone to all of our community outlining our teaching and learning updates and the move to 30 minute core tasks for all students with additional extension work if students would like further learning opportunities.

Further to this for students with special education needs or social, emotional and mental health needs we have adapted this approach further to support students and families. Students' timetables have been organised in order of priority. If students would like to complete all the tasks on the timetable, we would of course be very happy for them to do so. We are asking students to complete the priority 1 (green) tasks followed by with the priority 2 (blue) tasks if able. Again, if students are able to do more they can move onto the non-priority tasks but there is no requirement for them to do this and we are only asking for priority 1 and 2 tasks to be completed. All teachers will be aware of this approach and set appropriate work to support student learning for the priority tasks each week.

If you have any questions or concerns about this, please contact the SENCO at [elaine.cogan@colstonsgirls.org](mailto:elaine.cogan@colstonsgirls.org)
